Brian Hanson is Kansas State University's Radon Program Director at Engineering Extension. Mr. Hanson has been providing technical assistance and training related to radon for over 20 years, both for public and professional audiences through cooperative partnerships with the Kansas Department of Health and Environment (KDHE) and U.S. EPA KSU.

**ALEXANDRA

Alexandra received her Master of Science in Nuclear Engineering from the University of Florida in 2010 and her BS in Mathematics and Physics from St. Lawrence University in 2007. In addition to teaching entry-level and CE courses for KSU Radon Training, she maintains and operates the Kansas State University Radon Chamber.

I was thoroughly impressed with the content and enthusiasm.

The instructors made me realize how much I didn't know about radon!
